### MONEY AND THE TARIFF

Were Good Subjects For Mr. Lones and Judge Wells.

AN ENTHUSIASTIC AUDIENCE

Made Up In the Main of East Enders. Cheered the Speakers at Every Telling Point—The Patriotic League Organized a Branch—It Was a Good Meeting.

Judge W. G. Wells, of Lisbon, and W. F. Lones, of Wellsville, addressed an enthusiastic Republican meeting in Chamber's hall, East End, last evening on the political issues of the day.

A large crowd was present, among them being the Union Veterans' Patriotic league, who accompanied by a drum corps, attended in a body. A number of others from the city proper were also at the meeting. The small boy and his tin horn were very much in evidence, and materially aided in the volume of sound produced by the drum corps. It was after 8 o'clock when President Hanley called the meeting to order, and Secretary Hugh Clark read the list of vice presidents. When they were comfortably seated on the platform Chairman W. B. Thomas introduced the first speaker, and Mr. Lones began to talk. He was loudly applauded, and when allowed to speak launched into the great question. In a few short weeks we would be called upon to exercise the highest privilege accorded man, and it is our duty to leave no stone unturned in searching for the right. No man can live without the support of his fellow man. On the questions now before the American people depends our future happiness. In voting we should vote for the best interests of ourselves and our neighbors. We must not depend entirely upon the government for prosperity. Our own efforts must count for something. The Democrats promised prosperity, but the promise was broken. We all know the result. As prices declined to that cheap era we heard so much about, labor declined also. They told us the pudding would be sweet, but we found it of the sourest. The Democrats are much like the lightning rod agent who buncoed the farmer. When he came back the farmer kicked him into the road. That's what we should do with the Democrats. The Wilson bill is the most rascally measure ever conceived by man. Now about silver. Free coinage would not make the silver dollar free to the masses. It would make it free to the owner of the bullion. We are in duty bound to honor the present dollar, the government is behind it, but the new dollar, this proposed dollar, would have to stand alone. Free coinage is dishonest, it is an insult to the people. It is industrial poison.

Judge Wells was late in reaching the meeting, but he was cordially received when he arrived. He recalled the days when the Democracy split on the question of slavery, and compared them to the party at present, honoring the gold Democrats for their action. The Chicago platform was the especial object of his attack, and he scored the Democrats for their assault on the supreme court. We are all after the dollar, and it is but right that we know all about it. There has always been a desire to float fiat money. Money is the instrument of association. It is to civilization what the sun is to the world. The Republican party has ever been able to keep the paper it floated and the silver it coined at a parity with gold. Free coinage will not give silver value. If you take a \$53 horse to the mint and have it decorated with a \$100 stamp, would you pay \$100 for that horse? Silver is only worth the money it will bring in the market. The demonetization of silver did not cause hard times for all things were not affected alike. To have prosperity we must have unbounded confidence in the ability of our government to sustain our money. As money decreases in value so will the price of labor go down. Wages will drop with it. This is a good country. There never was a better. We have advanced more in the past century than the world did in the thousands of preceding years. Now the Democrats are arraying class against class. Trample the movement in the dust. Crush it out.

The speakers were recipients of much applause, and the meeting was a most enthusiastic one. Cheers were abundant, and every point clearly understood was given a demonstration. East End was out in force, and showed its appreciation of the situation as only the East End can. The Union Veteran Patriotic league, ever ready and anxious to spread its organization, founded a branch. The role soon contained nine names, and others will be added. It was a good meeting, and East End felt better because it was held.

### IT WAS RATHER LATE

But the Board of Health Transacted Some Business.

The board of health held a meeting last night, but it was 9 o'clock before a quorum was secured.

Mayor Gilbert explained that Will Kinsey, of the board of plumbing examiners, was not eligible, and all began talking at once. Officer King began to tell his troubles, but the mayor restored order, and these bills were passed: J. T. King, \$53; Doctor Ogden, \$25; Otto Schmidtbauer, \$7.87; W. & W. pharmacy, \$3.20; News Review, \$12.50. A bill from the Crisis for \$57.90 was held for investigation. Doctor Ogden's report showed six births and nine deaths. Eleven cases of diphtheria had been reported in 10 families. Mr. Goodwin asked what Officer King did with fees from permits, and it was explained he used them for street car fare. An alley in East End was discussed for a time, and Doctor Ogden spoke of the diphtheria. Officer King was asked to explain why John Cain was allowed to leave his house while his child had the disease. King explained Mr. Cain had acknowledged leaving his house, but had stated the board of health nor any other body could keep him from getting medicine for his child. A woman had also left the house and gone to Wellsville. Doctor Ogden said not one of the afflicted parties had been in contact with any other. Another peculiar feature is that the disease is on the hills in the northern part of the city. Mr. Goodwin thought it would be advisable for the health officer to occasionally visit the schools. And the board adjourned.

Indignant Republicans Demand an Explanation.

EDITOR NEWS REVIEW.—We are Republicans, and our position and influence has been felt in the past and will be felt still more strongly in the future. We take your paper and advocate it, not only because it advocates Republican principles, but because it stands up tenaciously for the right, fearing no man, combination or clique, and has thus won the respect of all good citizens. As Republicans, we demand to know why some party, or parties, connected with the Republican central committee, dares to give the printing of its bills, announcing Republican meetings and Republican speakers, to the Crisis office, an absolute enemy of William McKinley, of the Republican party, and of law and order. Further, while the union label is printed on said Crisis bills, the cowards who send them there are afraid to have the imprint of the Crisis thereon. The committeeman or men who act thus are not Republicans at heart, and their proper place is in line with the Crisis, which has no party and should not have any friends.

### PEDDLED POTATOES

And Chief Johnson Placed Arthur Watkins In Arrest.

Chief Johnson arrested Arthur Watkins this afternoon for violating a city ordinance. Watkins came here from Cleveland last Thursday, and has since been peddling potatoes from house to house. A charge of selling without a license was preferred against him. Watkins plead not guilty and concluded to stand trial. He claims he is a resident of the city, and will produce witnesses to substantiate the statement. The case will come to trial Monday afternoon. Watkins deposited \$15 for his appearance.

### SCARED THE GIRLS.

A Bursting Pipe Caused Excitement In a Pottery.

The girls employed in the decorating shop of the McNicol pottery received a genuine scare while at work last evening. The heat from a gas jet caused an automatic sprinkler in the shop to melt, and the loud sound that followed so frightened the girls that they imagined an explosion of gas had occurred. To escape the awful consequences they thought would follow the girls raised a window and began jumping out. The dress of one caught on the sill, and the unfortunate damsel hung there until released by her companions.

### Repaired the Culvert.

The damage at the West End culvert has been repaired, and the place made as safe as possible. A substantial trestle allows street cars to cross, and there is now little danger. It will not be long until the culvert is made as good as new.

### BETHANY WON AGAIN

But the Score Was Too Close For Comfort.

IT WAS A VERY GOOD GAME

Eclipse Won the Toss and Took the Ball, but Lost It—Hard Fighting at Bethany's Goal—The Second Half Was Hard Fought From Start to Finish.

Bethany college beat the Eclipse club at football, but the long-haired young gentlemen from Virginia were compelled to play hard before they won by the meager advantage of 10 over nothing.

The grand stand was well filled with an interested crowd, and the field contained its usual assemblage when the teams lined up in this order:

BETHANY.	Position.	ECLIPSE.
Place.....	Left end.....	McLane
Chapman.....	Left tackle.....	Brockett
Accom.....	Left guard.....	Sneidker
Miland.....	Center.....	Harris
Carman.....	Right guard.....	Stevenson
Adams.....	Right tackle.....	C. Hall
Martin.....	Right end.....	Echols
Reeves.....	Quarterback.....	Hill-Thomas
Curtis.....	Left half.....	Herbert
Crawford.....	Right half.....	Brenneman
Waston.....	Fullback.....	R. Hall
Colyer.....	Subs.....	Tarr
Stickley, umpire; Anglinbaugh, referee; Taylor and Fisher, linesmen.		

Eclipse won the toss, and took the ball. Brenneman kicked off, and Watson returned it. The teams then lined up with the ball in the possession of Eclipse, and the battle began. A serious error on the part of the home team gave Bethany a touchdown, but Watson failed to kick a goal and the score was 4-0.

Again the teams took position in line, and Eclipse got the kick. The ball was captured by Bethany, but did not go far. The player went down, Eclipse got the ball, and played their opponents at a stand still. The center was attacked again and again, and the battle moved toward Bethany's goal. Down through the field they went until the five yard line was passed. Every foot was contested, and every player did his best. At length it was seen Eclipse had lost it in downs, and time was called at the end of the first half with the ball on Bethany's 15 yard line.

Bethany kicked off in the second half, and McClain captured the ball. He did not reach the middle of the field before he went down before the assault of a sturdy Bethany man. Then there were good plays by the dozen. The ball changed hands again and again. The teams played close, and the battle raged with earnestness. Eclipse lost ground on a fumble, and Bethany fought them back for another touchdown. Watson succeeded in kicking a goal, and the score was 10-0.

This brought out some disappointment from the crowd, but Eclipse kicked off again, and realizing that victory could only be gained by hard work pushed the ball down the field. It was going dangerously near Bethany's goal, and both teams were preparing for the final struggle when Watson made an off play. It was a magnificent leap, but the referee declared it off color, and Eclipse advanced 15 yards. The decision brought out a heated argument, and all were talking earnestly when Harris, who had the ball, strode through the crowd, and planting it on the point desired by Eclipse held his ground. Another breach of the law gave Eclipse 15 yards more. Then the game was intensely interesting, for only three minutes of time remained. The ball came to Hall, and he punted it over the goal. This brought on another discussion, Bethany got the ball, and the game was over. Score, 10 to 0.

It was a good game. Eclipse did not win, but that was due more to circumstances than to poor playing. Every man played his position in good form. The score is small, and a wonder when it is remembered that the result last year was 42-0. Bethany had the referee and the timekeeper, and this worked not a little against the home team. The only word that can be said against the game was the manner in which the crowd poured on the field at every opportunity, obstructing the players and shutting off the view of the crowd in the grandstand. Ropes will prevent this in future games.

### Recovering Rapidly.

The child in the family of John Cain, of Lincoln avenue, who has been suffering with diphtheria is recovering rapidly and will be entirely well in a few days.

### Minor Matters.

The trustees of the water works held their regular monthly meeting last evening. Only a few minor matters were considered.

### WE GIVE IT UP.

A Democrat Wants to Know What the Crisis Represents.

EDITOR NEWS REVIEW.—Will you kindly tell me what political party the East Liverpool Crisis represents? It runs no ticket at the head of its paper, and I am given to understand by Democrats who are much too well acquainted with its proprietor for their moral health that he will publish nothing of the kind in his what-is-it sheet without being paid the same rates as he receives for legal advertising. In my acquaintance (in a political way) with its proprietor, I know, as an established fact, that all money paid in at the political caucuses was gobbled up by him in some manner, the bills he presented covering everything subscribed. Kindly let me know, as a reader of your straight-out, hitting-from-the-shoulder Republican newspaper, to what party, if any, the Crisis belongs.

### SHORT OF FUNDS.

The City Must Practice the Most Rigid Economy.

Finance committee met yesterday afternoon, and decided to hold a special meeting on Tuesday evening for the purpose of passing a resolution to readvertise for bids for lighting the city, and hearing any objections the street car company may have to the ordinance as prepared. The condition of the funds was investigated, and it was found that it will be necessary to practice even more rigid economy than heretofore. Arrangements will be made to settle the Billingsley bill.

### GOOD SCORES

Were Made at the Shoot of the Gun Club Yesterday.

The gun club conducted an interesting shoot on their grounds in East End yesterday. Foutts and Webber were tied for first place in the first, 25 birds from unknown trap, each getting 17. Foutts won the second, and Webber and Parsons were tied in the third, 19 birds each. Foutts, Webber and Barker shot against Parke, Parsons and Welsh, of Wellsville, and won by one bird. The club have good grounds, and expect to hold a number of shoots in the near future.

### AT THE TOP.

Winnie Mercer to Get the Best Salary Paid a Pitcher.

Sporting Life this week has the following to say: "According to J. Earl Wagner, president of the Washington team, Pitcher Mercer will next season be the recipient of the highest salary paid any pitcher in the league and consequently in the profession. This is tough on Nichol, Young, Cuddy, Breitenstein and other stars." Alf Shaw has been reserved by the Wheeling interstate league club.

### MORE DIPHTHERIA.

Another Case Was Reported to the Health Officers.

This morning another case of diphtheria was reported to the health authorities. The afflicted person is Henrietta, the little daughter of Mr. and Mrs. Samuel Bourne, of Sheridan avenue. Their little boy is also confined to the house with an attack of membranous croup. The necessary quarantine was placed upon the inmates of the house without delay.

### DOWN ON HIS KNEES

He Dropped Before the Democratic Central Committee.

HIS RECEPTION WAS CRUEL

The Representative of the Lower Region Daily of East Liverpool Bows Down in Abject Humiliation, and Rises Up in Deep Despair and Anguish.

How have the mighty fallen? Is it possible that the independent, the fearless and courageous Joernes has been compelled to bow down at the feet of the Democratic party of East Liverpool, the members of which he has traduced in the most virulent, malicious and untruthful manner, and beg of them that they would make use of his columns, at so much per line and inch, in announcing tonight's meeting at the Fifth street rink? Of a verity the "Burglar's Tool" must have lost his grip when he stooped to such a measure. If there exists such a thing as shame in the fellow's makeup, then this is the time when the article should make itself apparent, as the poor creature realizes that his feast of humiliation was for naught, and he must do without the coveted leaves and fishes.

And this introductory means that a representative of the Lower Region sheet made his presence known at the meeting of the Democratic central committee the other night, and whined and begged that his paper might be used as an advertising medium for the Democratic meeting to take place tonight, at rates about on a par with those which the delectable sheet charged Ex-Mayor John Hall, the re-elected bill for which the ex-mayor will keep as a memento, as a never-failing reminder that he is on the warpath, with keen-edged thomahawk, whenever Gentle Joernes is in his neck of woods, either after office or the needful, the love of which is the root of all evil.

We have two of the members of the Democratic central committee as authority for the statement that the representative of the Lower Region sheet was sat down upon in such a cold-blooded manner as to cause his blood to congeal in his veins, while icicles collided with his spinal chord. He was informed that, in the estimation of the members of the committee, his paper had no claim upon Democracy; that no Democratic paper was known to exist in East Liverpool; that the supposed head of his sheet was a wooden-head, not fit to decorate the body of an Indian cigar sign, and that he, the supposed head of the supposititious daily, could go to hades and slide around on congealed atmosphere for innumerable years, and would then have ample time for a loafing spell, before he would get any paid advertising from the Democratic central committee, as at present constituted.

It was awful, and the witnesses to the transaction assert that the representative of the sheet, which is backed by neither principle nor manhood, seemed to wither away under the weight of contempt which was cast upon him, and he vanished into darkness with a moan of anguish and despair.

### HANGED HIMSELF.

A Fostoria Man Who Had Relatives In This Place.

Trustee Albright received word yesterday that his cousin, William Weaver, had committed suicide at his home in Fostoria. Thursday morning the relatives of the unfortunate man found him hanging in a barn. The body was cut down but life was extinct. It is thought the death of a daughter, which occurred several weeks ago, unbalanced the father's mind and caused him to take his life. Mrs. Lyda Weaver, of this city, was a sister of the dead man.

### ROYALLY ENTERTAINED.

Irondale Gave the "Merry Milkmaids" a Reception.

The "Merry Milkmaids" returned from Irondale this morning, after a very successful trip. The hall was crowded, and the members of the company did their best. After the performance a number of Irondale people entertained them in splendid style. They were shown the tin mill, and an oyster supper was served in the hall. A number of people from this city accompanied the party of players.

### TUMBLED THE ENGINE.

A Valve Burst and the Steam Escaped With a Rush.

While the strand of the bridge cable, stretched across the river yesterday, was being tightened this morning the strain was so great as to overturn the engine on the Virginia abutment. Several employees were standing near, and hastily left to avoid being scalded by steam from a broken valve. The accident delayed operations an hour or two.

Eclipse won the toss, and took the ball. Breneman kicked off, and Watson returned it. The teams then lined up with the ball in the possession of Eclipse, and the battle began. A serious error on the part of the home team gave Bethany a touchdown, but Watson failed to kick a goal and the score was 4-0.

Again the teams took position in line, and Eclipse got the kick. The ball was captured by Bethany, but did not go far. The player went down, Eclipse got the ball, and played their opponents at a stand still. The center was attacked again and again, and the battle moved toward Bethany's goal. Down through the field they went until the five yard line was passed. Every foot was contested, and every player did his best. At length it was seen Eclipse had lost it in downs, and time was called at the end of the first half with the ball on Bethany's 15 yard line.

Bethany kicked off in the second half, and McClain captured the ball. He did not reach the middle of the field before he went down before the assault of a sturdy Bethany man. Then there were good plays by the dozen. The ball changed hands again and again. The teams played close, and the battle raged with earnestness. Eclipse lost ground on a fumble, and Bethany fought them back for another touchdown. Watson succeeded in kicking a goal, and the score was 10-0.

This brought out some disappointment from the crowd, but Eclipse kicked off again, and realizing that victory could only be gained by hard work pushed the ball down the field. It was going dangerously near Bethany's goal, and both teams were preparing for the final struggle when Watson made an off play. It was a magnificent leap, but the referee declared it off color, and Eclipse advanced 15 yards. The decision brought out a heated argument, and all were talking earnestly when Harris, who had the ball, strode through the crowd, and planting it on the point desired by Eclipse held his ground. Another breach of the law gave Eclipse 15 yards more. Then the game was intensely interesting, for only three minutes of time remained. The ball came to Hall, and he punted it over the goal. This brought on another discussion, Bethany got the ball, and the game was over. Score, 10 to 0.

It was a good game. Eclipse did not win, but that was due more to circumstances than to poor playing. Every man played his position in good form. The score is small, and a wonder when it is remembered that the result last year was 42-0. Bethany had the referee and the timekeeper, and this worked not a little against the home team. The only word that can be said against the game was the manner in which the crowd poured on the field at every opportunity, obstructing the players and shutting off the view of the crowd in the grandstand. Ropes will prevent this in future games.

### WE GIVE IT UP.

A Democrat Wants to Know What the Crisis Represents.

EDITOR NEWS REVIEW:—Will you kindly tell me what political party the East Liverpool Crisis represents? It runs no ticket at the head of its paper, and I am given to understand by Democrats who are much too well acquainted with its proprietor for their moral health that he will publish nothing of the kind in his what-is-it sheet without being paid the same rates as he receives for legal advertising. In my acquaintance (in a political way) with its proprietor, I know, as an established fact, that all money paid in at the political caucuses was gobbled up by him in some manner, the bills he presented covering everything subscribed. Kindly let me know, as a reader of your straight-out, hitting-from-the-shoulder Republican newspaper, to what party, if any, the Crisis belongs. DEMOCRAT.

### SHORT OF FUNDS.

The City Must Practice the Most Rigid Economy.

Finance committee met yesterday afternoon, and decided to hold a special meeting on Tuesday evening for the purpose of passing a resolution to readvertise for bids for lighting the city, and hearing any objections the street car company may have to the ordinance as prepared. The condition of the funds was investigated, and it was found that it will be necessary to practice even more rigid economy than heretofore. Arrangements will be made to settle the Billingsley bill.

### GOOD SCORES

Were Made at the Shoot of the Gun Club Yesterday.

The gun club conducted an interesting shoot on their grounds in East End yesterday. Foutts and Webber were tied for first place in the first, 25 birds from unknown trap, each getting 17. Foutts won the second, and Webber and Parsons were tied in the third, 19 birds each. Foutts, Webber and Barker shot against Parke, Parsons and Welsh, of Wellsville, and won by one bird. The club have good grounds, and expect to hold a number of shoots in the near future.

Earl Wagner, president of the Washington team, Pitcher Mercer will next season be the recipient of the highest salary paid any pitcher in the league and consequently in the profession. This is tough on Nichol, Young, Cuppy, Breitenstein and other stars." Alf Shaw has been reserved by the Wheeling interstate league club.

Their little boy is also confined to the house with an attack of membranous croup. The necessary quarantine was placed upon the inmates of the house without delay.

### DOWN ON HIS KNEES

He Dropped Before the Democratic Central Committee.

HIS RECEPTION WAS CRUEL

The Representative of the Lower Region Daily of East Liverpool Bows Down in Abject Humiliation, and Rises Up in Deep Despair and Anguish.

How have the mighty fallen? Is it possible that the independent, the fearless and courageous Jeemes has been compelled to bow down at the feet of the Democratic party of East Liverpool, the members of which he has traduced in the most virulent, malicious and untruthful manner, and beg of them that they would make use of his columns, at so much per line and inch, in announcing tonight's meeting at the Fifth street rink? Of a verity the "Burglar's Tool" must have lost his grip when he stooped to such a measure. If there exists such a thing as shame in the fellow's makeup, then this is the time when the article should make itself apparent, as the poor creature realizes that his feast of humiliation was for naught, and he must do without the coveted leaves and fishes.

And this introductory means that a representative of the Lower Region sheet made his presence known at the meeting of the Democratic central committee the other night, and whined and begged that his paper might be used as an advertising medium for the Democratic meeting to take place tonight, at rates about on a par with those which the detestable sheet charged Ex-Mayor John Hall, the receipted bill for which the ex-mayor will keep as a memento, as a never-failing reminder that he is on the warpath, with keen-edged thomahawk, whenever Gentle Jeemes is in his neck of woods, either after office or the needful, the love of which is the root of all evil.

We have two of the members of the Democratic central committee as authority for the statement that the representative of the Lower Region sheet was sat down upon in such a cold-blooded manner as to cause his blood to congeal in his veins, while icicles collided with his spinal chord. He was informed that, in the estimation of the members of the committee, his paper had no claim upon Democracy; that no Democratic paper was known to exist in East Liverpool; that the supposed head of his sheet was a wooden-head, not fit to decorate the body of an Indian cigar sign, and that he, the supposed head of the supposititious daily, could go to hades and slide around on congealed atmosphere for innumerable years, and would then have ample time for a loafing spell, before he would get any paid advertising from the Democratic central committee, as at present constituted.

It was awful, and the witnesses to the transaction assert that the representative of the sheet, which is backed by neither principle nor manhood, seemed to wither away under the weight of contempt which was cast upon him, and he vanished into darkness with a moan of anguish and despair.

### HANGED HIMSELF.

A Fostoria Man Who Had Relatives In This Place.

Trustee Albright received word yesterday that his cousin, William Weaver, had committed suicide at his home in Fostoria. Thursday morning the relatives of the unfortunate man found him hanging in a barn. The body was cut down but life was extinct. It is thought the death of a daughter, which occurred several weeks ago, unbalanced the father's mind and caused him to take his life. Mrs. Lydia Weaver, of this city, was a sister of the dead man.

### ROYALLY ENTERTAINED.

Irontale Gave the "Merry Milkmaids" a Reception.

The "Merry Milkmaids" returned from Irontale this morning, after a very successful trip. The hall was crowded, and the members of the company did their best. After the performance a number of Irontale people entertained them in splendid style. They were shown the tin mill, and an oyster supper was served in the hall. A number of people from this city accompanied the party of players.

### TUMBLED THE ENGINE.

A Valve Burst and the Steam Escaped With a Rush.

While the strand of the bridge cable, stretched across the river yesterday, was being tightened this morning the strain was so great as to overturn the engine on the Virginia abutment. Several employes were standing near, and hastily left to avoid being scalded by steam from a broken valve. The accident delayed operations an hour or two.

THE Democratic, Popocratic, Republican (?) Whimsical sheet, published in Rat alley, in the lower regions, is deeply in love with unionism when it desires to print Bryan bills. Has it any remembrance of how, for one and one-half years, it tried to kill unionism in this city, and did not enter the union ranks until it was whipped in? Consistency thou art indeed a jewel.

### MERITED CONTEMPT.

And now the Lower Region sheet has been forced to eat humble pie and beg for patronage at the hands of the Democratic central committee, the members of that organization treating the delectable sheet with contempt and declaring that its proprietor is neither fish, flesh nor fowl, and further declaring that there is no Democratic daily paper published in East Liverpool. Read article respecting the affair on our first page.

### TRUE REPUBLICANISM.

The voter of average sense makes query: "What constitutes true Republicanism?" The common sense reply is: True Republicanism consists in the advocacy of the essential and vital principles enunciated in the platform of the great Republican party; in the earnest advocacy of a protective tariff, sufficient to foster and encourage home manufactures and home industries, and to furnish employment to home labor, at living, remunerative wages; in the earnest advocacy of an honest circulating medium, be that what it may, gold, silver or paper, but based upon a foundation which makes each dollar worth just one hundred cents, all over the civilized world; the earnest advocacy of the promotion of William McKinley to the presidency of the United States, because he is the choice of the Republican party, the choice of the great masses, and the leader who will, under God, lead this great nation into such an era of prosperity as it has never before known. The News Review is Republican from center to circumference. Why? Not because it is fed on political pap. Not because it receives good treatment at the hands of one or two would-be local leaders—men animated by personal spite and malice and who resort to all kinds of underhanded measures and, unmanly trickery. The News Review is staunchly and squarely Republican, simply because its owner and manager believes that the Republican party is the very best party for all the people, and because the principles enunciated in the party platform are best calculated to cause this blessed land to prosper, and thus render the masses contented and happy. The owner and proprietor of the News Review cast his first ballot for one of the grandest men known to history—Abraham Lincoln—and has voted the Republican ticket always and ever since that first ballot.

BRYAN IN CINCINNATI.

He Spoke In West Virginia and Kentucky Enroute There.

CINCINNATI, Oct. 2.—William Jennings Bryan marched into the heart of the "enemy's" country last night and addressed three big meetings in this city. Then he crossed to the Kentucky shore and spoke to a great assemblage at Covington. It was a fitting close to a most eventful day. From dawn to dusk the nominee sped across West Virginia from Charleston to the Ohio river, stopping and speaking at almost every town of consequence, and then in towns along the Kentucky banks in West Virginia and Kentucky to this city. Arriving here at 6:45 o'clock he was met by a local committee, and the members of the Duckworth club and was driven to the Hotel Gibson, where he ate a light supper.

Almost immediately afterward a procession was formed to Music Hall, where the first and biggest meeting of the night was held. At the conclusion of his speech, there he addressed two other successive meetings from stands erected at street corners, to gratify the thousands who could not gain entrance to the hall. Then he visited Covington. The vast hall was so thickly packed with people that it was next to impossible to move. Even the aisles were clogged with standing men and women. In the beginning was started what looked like an attempt to break up the meeting, but it was quickly suppressed and thereafter the candidate's utterances were greeted with the utmost enthusiasm. The disturbance was created by a gang of roughs in the gallery and while it lasted it threatened to create trouble.

Mr. Bryan appeared upon the stage at 8:20 o'clock and the ovation that greeted his entrance continued without abatement for eight minutes. When the applause had subsided, Hon. Louis Remien, who acted as chairman of the meeting, attempted to introduce Mr. Bryan, but the gallery would not permit him to talk. Hon. Gustave Tafel then tried to get something like order, but with no better success. Eventually, Mr. Bryan stepped to the speaker's stand, and raised his hand in a mute appeal for silence. For a moment he was successful, but at the end of his first sentence, the noise in the upper part of the house was renewed, and the candidate was obliged to resume his seat.

Then Olway J. Cosgrove, president of the Duckworth club, under whose auspices the meeting was held, pointed out, as the chief offenders, three men in one of the balconies and asked the police to remove them. In doing so he characterized them as blackguards and entreated the rest of the audience to give Mr. Bryan fair play as a fellow citizen and an American. This effectually silenced the crowd, and, after the trio of belligerents had been summarily ejected, Mr. Bryan went on with his speech.

### THIS MAY MAKE TROUBLE.

England Objects to Germany's Removal of the Zanzibar Usurper.

ZANZIBAR, Oct. 3.—It will be remembered that, when British ships bombarded the palace, driving out the usurping sultan, who was supposed to have poisoned the late ruler, the usurper Seyid Khalid took refuge in the German consulate and the British put another on the throne.

The German consul, acting upon the instructions received from his government, refused to place the fugitive in the hands of the British. This caused considerable irritation and has been the cause of considerable diplomatic correspondence between Great Britain and Germany.

The situation has taken a new turn. An unusually high tide prevailed and while it was touching the wall of the German consulate, Khalid was placed, under an escort of armed German sailors, on board the German cruiser Seeadler for conveyance, it is believed, to one of the German colonies.

The British consul here, Mr. Basil Cave, in charge of the British agency in the absence of A. H. Harding, the British agent and consul general, who has been to England to consult with the home government regarding the administration of Zanzibar, was not notified of the removal of Khalid to the German warship until after the usurper was safe on board the Seeadler. But so soon as he became aware of the action of the German authorities Mr. Cave lodged a vigorous protest at the German consulate against the embarkation of Khalid, especially pointing out that the question of his surrender to the British authorities was still under discussion by the governments of Great Britain and Germany. He also called to his government international complications of a serious nature may result.

### Hot Blow at the Socialists.

DETROIT, Oct. 3.—Speaking of the discussion over proposed socialistic amendments to the constitution of the International Cigarmakers' union, President Perkins told the delegates that they had not assembled to regulate the universe in the affairs of workmen in general. Their duty was to legislate for the interests of the cigarmakers. "Our organization," he said, "has secured for us shorter hours and higher wages. They would gain nothing through politics, he said.

## TONSILINE CURES SORE THROAT.

Read what a well-known Minister writes about Tonsiline:

East Palestine, O., April 8, 1895.

The Tonsiline Co.: I take pleasure in saying that we have used Tonsiline in the family for ulcerated sore throat, and it not only seemed to prevent the attack from being so severe as formerly, but cured the throat completely in a very few days. When any one of us has sore throat of any kind, the rush is for the Tonsiline bottle, and that is the last of it. It is certainly a most excellent remedy.

Yours very truly,  
D. F. DICKSON.

## DUN'S TRADE REVIEW.

Increase in Failures, Owing to the Coming Election.

BUSINESS OUTLOOK SOME BETTER.

Encouraging Progress in the Great Industries, Although Actual Gain is Slight—Wheat Continues to Advance. A Belief That Better Times Are Near.

NEW YORK, Oct. 3.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, says: The complete report of failures for the quarter which ended with Wednesday shows an increase which would be surprising if political causes were not obvious. In number 6½ per cent less than in the panic quarter of 1893, failures for the quarter show liabilities 11.1 per cent less, amounting to \$73,285,349, against \$81,869,982 in the previous half year. Manufacturing liabilities were \$32,479,196, or 37 per cent greater than in the same quarter of 1893, while trading were \$28,738,217 and other commercial were \$12,067,236.

To this must be added \$11,712,900, liabilities in 50 bank failures, making exclusive of railways nearly \$85,000,000 for a single quarter. Comparisons are given showing that in only six quarters in 22 years have defaulted liabilities been as large, that the ratio to solvent business has been \$6.06 per \$1,000 against \$2.34 for the same quarter last year, that the average per firm in business has been \$63.57, against \$26.92 last year, that the proportion of increase has been greatest in the western states, both in amount and in average liabilities per failure, and much larger in manufacturing than in trading.

Part, but clearly not all of the causes, has been removed by the influx of gold, and depression is still shown by clearinghouse payments, 23.1 per cent less than last year for the week and 31.2 per cent less than in 1892, when another presidential election was near.

The continued advance in wheat may prove of the utmost importance. It has been 1.12 cents for the week and 10 cents since Sept. 2, and is mainly due to short crops abroad and unusual foreign demand. Atlantic exports for the quarter ending with September, flour included, were 23,195,214 bushels against 24,320,020 last year, the outgo of wheat separately having nearly doubled in spite of higher prices. No lack of visible domestic causes or supports the advance; western receipts for the exact quarter were 57,422,941 bushels against 43,790,499 bushels last year.

There are unmistakable encouraging progress in the great industries, although the actual gain in working force employed or in new orders received is slight. But the strong demand for materials, for pigiron, hides and wool, as for cotton, does not diminish, and has already gone far enough to stiffen prices. In wool, quotations are scarcely stronger, but represent actual sales more nearly than in past weeks, when buyers with cash almost made their own prices. Sales in five weeks have been 33,169,300 pounds, of which only 4,679,400 were foreign, against 34,719,170 last year, of which 15,553,470 were foreign, and 37,288,400 in 1892, of which 11,090,600 were foreign, and when it is remembered that in spite of the recent starting of some mills, not more than 30 per cent of the total capacity can be producing, the preponderance of purchases to anticipate future wants is apparent. Orders for woollens do not gain, and several kinds of dressgoods, flannel suitings and fancy worsteds, are selling a shade lower.

Buying of Bessemer pig again lifts Pittsburgh quotations to \$11.75 without any general gain in the demand for finished products, and steel bars for the first time are sold at 1 cent against 1.2 cents asked by the association for iron bars. Plates and rails are in less demand, but there is heavy buying of sheets at the west. Confidence that reviving business must bring a greater demand than all the works can meet induces the various associations to make no change in their prices.

Merchants and manufacturers are waiting, but there are not wanting signs that many have the confidence to push forward as though the dawn of prosperity were close at hand. The quarter that has passed has been most trying, but things would be worse than they are but for the general belief that better times are near.

### WOULD STEVENSON ACCEPT?

He Refuses to Say If Sewall and Watson Were Dropped.

ST. LOUIS, Oct. 3.—Vice President Adlai E. Stevenson has arrived here from Burlington, Ia., where he met with an accident in the collapse of a reviewing stand at the semi-centennial. He was slightly bruised and seemed none the worse for his experience.

Your representative informed him, soon after his arrival at the Southern hotel, of the reports that Sgwall and Watson would resign or be dropped from their respective tickets and a candidate substituted who could bring the voters of the Democratic and Populist parties together. He said:

"This is the first that I have heard of the matter, and I think it amounts to nothing more than newspaper talk."

In reply to question whether if such action was taken and the nomination offered to him, he would accept, General Stevenson said:

"That is hardly a fair question to ask under the circumstances. I have not been offered the nomination, nor do I think I will be."

### Story of a Battle Denied.

MADRID, Oct. 3.—A dispatch from Havana received here announces that it is denied that Mulguiz has taken the posts occupied by General Maceo and that the insurgents lost 80 killed and large numbers wounded. The dispatches add that 11 Spaniards were killed and that 90 were wounded.

### The Civil Service Spreads.

WASHINGTON, Oct. 3.—A small application of civil service principles to the navy is indicated in an order made by the president, placing shipwriters in line of promotion to the grade of yeoman, whose compensation is \$60 per month.

## THE TEMPLE CUP SERIES.

The Baltimore Took the First Game From the Cleveland.

BALTIMORE, Oct. 3.—The champions took a long pull and a pull all together and beat their ancient enemies, the Orioles, in the first game for the Temple cup series of 1896. They did it with such apparent ease that the hearts of the Baltimore fans are filled with the fondest hopes that the trophy which has heretofore hung too high for the Orioles to reach, will at last be plucked and brought to Baltimore to keep company with the three championship pennants, of which Manager Hanlon is so proud. Four thousand people saw the game.

The contest throughout was clean and free from wrangling, although some close decisions were questioned. The crowd was goodnatured and cheered Captain Tebeau when he came to the bat. He was compelled to relinquish his place to O'Connor at the beginning of the third inning because

W. C. TEMPLE.

of an injury to his back. McGraw for the Orioles, also found the work too hard for him and Quinn took third bag in the last half of the same inning.

The game, as an exhibition of scientific ball playing, was a good one, abounding in fine fielding and hard hitting. Jennings' error, the only one for the Orioles, was an excusable one, being a low throw to first after a brilliant stop, and while running at top speed. Those of the visitors who resulted in giving runs to the home team. Young was batted freely, while Hoffer pitched a masterly game, striking out five men and that at times when even a long fly would have meant a run for the visitors. Score:

At Baltimore—  
Baltimore.....0 0 2 0 1 3 0 1—7 13 1  
Cleveland.....0 0 0 0 1 0 0 0—1 5 4  
Batteries—Robinson and Hoffer; Zimmerman and Young. Umpires—Emalle and Sheridan. Attendance, 3,905.

### ONE ROBBER KILLED.

A Railroad Train Held Up Near Albuquerque, N. M.

ALBUQUERQUE, N. M., Oct. 3.—The eastbound No. 2 passenger train has been held up at Rip Puerto bridge, about 30 miles from this city.

When the robbers jumped on the engine and compelled Engineer Ross and his fireman to uncouple the engine and express car from the train, Department Deputy Marshal Loomis, who was returning from the west, took in the situation and fired at the first man, killing Robber Cole Young.

The robbers then commenced shooting, and shot a lantern from the hand of a brakemen. Rumors here are that several others were shot, but this is not yet confirmed.

### THE FLORIDA TORNADO.

Harrowing Reports Received From the Interior Points.

PENSACOLA, Fla., Oct. 3.—Further reports received from interior points in the path of the tornado show that it was the most destructive storm ever known in the state. The death list is growing and the destruction to buildings, crops, timber, railroads, livestock, etc., is now estimated at millions of dollars. The state agriculture college at Lake City was badly damaged and many of the finest depots along the lines of railroads are complete wrecks.

The large phosphate works in Alachua county were badly damaged and all the turpentine works in that section were destroyed. In many districts not a vestige was left of the growing crops. The storm was not expected in the interior, and many persons were killed who might have sought shelter had they been warned.

### THE REPORTS EXAGGERATED.

Probably Twenty Lives Lost at Cedar Keys, in Florida.

JACKSONVILLE, Fla., Oct. 3.—The reports that have been sent out concerning the loss of life at Cedar Keys are grossly exaggerated.

It is so far positively known that 20 persons have been drowned in that vicinity, in addition to this it is feared that the crews of numerous sponging vessels were lost during the gale, but as communication with that district is still impossible, any statement of probable numbers would be the merest guess work. In the interior of Florida the destruction of property was great, but no loss of life is reported.

### THE ROAD TIED UP TIGHT.

Canadian Pacific Trying to Get Operators in New England.

WINNIPEG, Oct. 3.—The Canadian Pacific is tied up as tightly as ever. It is reported that a collision between two trains was narrowly averted west of Griswold. The strikers claim that six operators who returned to work have gone out again. No freight is moving and all express business except prepaid to be left on the platform is declined.

PROVIDENCE, R. I., Oct. 3.—Traveling Passenger Agent McKenna of the Canadian Pacific railroad has been in this city looking for telegraph operators to take the place of the operators of the road who are on strike. Free transportation, good food and big salaries were the inducements offered, but Mr. McKenna got no recruits. He left for Worcester at noon.

## A SMILING FACE.

'Tis nice to wear a smiling face  
And laugh our troubles down.  
For all our little trials wait  
Our laughter or our frown.  
Beneath the magic of a smile  
Our doubts will fade away  
As melts the snow in early spring  
Beneath the sunny ray.

'Tis nice to make a worthy cause  
By helping it our own;  
To give the current of our lives  
A true and noble tone.  
'Tis nice to comfort heavy hearts  
Oppressed with dull despair  
And leave in sorrow darkened lives  
A gleam of brightness there.

'Tis nice to give a helping hand  
To eager, earnest youth;  
To watch, with all their waywardness,  
Their courage and their truth;  
To strive, with sympathy and love,  
Their confidence to win.  
'Tis nice to open wide the heart  
And "let the sunshine in."  
—London Tit-Bits.

When we part with our labor, our products, or our property, we should receive in return money which is as stable and unchanging in value as the ingenuity of honest men can make it.—WILLIAM MCKINLEY.

### Five Facts Worthy of Daily Study.

First—There is not a free coinage country in the world today that is not on a silver basis.

Second—There is not a gold standard country in the world today that does not use silver as money along with gold.

Third—There is not a silver standard country in the world today that uses any gold as money along with silver.

Fourth—There is not a silver standard country in the world today that has more than one-third as much money in circulation per capita as the United States have; and

THE Democratic, Popocratic, Republic-  
canic (?) Whatisitatic sheet, published  
in Rat alley, in the lower regions, is  
deeply in love with unionism when it  
desires to print Bryan bills. Has it any  
remembrance of how, for one and one-  
half years, it tried to kill unionism in  
this city, and did not enter the union  
ranks until it was whipped in? Consistency  
than art indeed a jewel.

## MERITED CONTEMPT.

And now the Lower Region sheet has  
been forced to eat humble pie and beg  
for patronage at the hands of the Demo-  
cratic central committee, the members  
of that organization treating the de-  
lectable sheet with contempt and de-  
claring that its proprietor is neither fish,  
flesh nor fowl, and further declaring  
that there is no Democratic daily paper  
published in East Liverpool. Read  
article respecting the affair on our first  
page.

## TRUE REPUBLICANISM.

The voter of average sense makes  
query: "What constitutes true Repub-  
licanism?" The common sense reply is:  
True Republicanism consists in the  
advocacy of the essential and vital prin-  
ciples enunciated in the platform of the  
great Republican party; in the earnest  
advocacy of a protective tariff, sufficient  
to foster and encourage home manu-  
factures and home industries, and to  
furnish employment to home labor, at  
living, remunerative wages; in the  
earnest advocacy of an honest circulating  
medium, be that what it may, gold,  
silver or paper, but based upon a founda-  
tion which makes each dollar worth  
just one hundred cents, all over the  
civilized world; the earnest advocacy of  
the promotion of William McKinley to  
the presidency of the United States, be-  
cause he is the choice of the Republican  
party, the choice of the great masses,  
and the leader who will, under God,  
lead this great nation into such an era of  
prosperity as it has never before known.  
The News Review is Republican from  
center to circumference. Why? Not  
because it is fed on political pap. Not  
because it receives good treatment at the  
hands of one or two would-be local  
leaders—men animated by personal spite  
and malice and who resort to all kinds  
of underhanded measures and unmanly  
trickery. The News Review is  
staunchly and squarely Republican, sim-  
ply because its owner and manager be-  
lieves that the Republican party is the  
very best party for all the people, and  
because the principles enunciated in the  
party platform are best calculated to  
cause this blessed land to prosper, and  
thus render the masses contented and  
happy. The owner and proprietor of the  
News Review cast his first ballot for  
one of the grandest men known to his-  
tory—Abraham Lincoln—and has voted  
the Republican ticket always and ever  
since that first ballot.

## BRYAN IN CINCINNATI.

He Spoke in West Virginia and Ken-  
tucky Enroute There.

CINCINNATI, Oct. 2.—William Jen-  
nings Bryan marched into the heart of  
the "enemy's" country last night and  
addressed three big meetings in this  
city. Then he crossed to the Kentucky  
shore and spoke to a great assemblage  
at Covington. It was a fitting close to  
a most eventful day. From dawn to  
dusk the nominee sped across West Vir-  
ginia from Charleston to the Ohio river,  
stopping and speaking at almost every  
town of consequence, and then in towns  
along the Kentucky banks, in West Vir-  
ginia and Kentucky to this city. Ar-  
riving here at 6:45 o'clock he was met  
by a local committee and the members  
of the Duckworth club and was driven  
to the Hotel Gibson, where he ate a  
light supper.

Almost immediately afterward a pro-  
cession was formed to Music Hall,  
where the first and biggest meeting of  
the night was held. At the conclusion  
of his speech, there he addressed two  
other successive meetings from stands  
erected at street corners, to gratify the  
thousands who could not gain entrance  
to the hall. Then he visited Covington.  
The vast hall was so thickly packed  
with people that it was next to impos-  
sible to move. Even the aisles were  
clogged with standing men and women.  
In the beginning was started what  
looked like an attempt to break up the  
meeting, but it was quickly suppressed  
and thereafter the candidate's utter-  
ances were greeted with the utmost en-  
thusiasm. The disturbance was created  
by a gang of ruffians in the gallery and  
while it lasted it threatened to create  
trouble.

Mr. Bryan appeared upon the stage at  
8:20 o'clock and the ovation that  
greeted his entrance continued without  
abatement for eight minutes. When  
the applause had subsided, Hon. Louis  
Remlein, who acted as chairman of the  
meeting, attempted to introduce Mr.  
Bryan, but the gallery would not per-  
mit him to talk. Hon. Gustave Tafel  
then tried to get something like order,  
but with no better success. Eventually,  
Mr. Bryan stepped to the speaker's  
stand, and raised his hand in a mute  
appeal for silence. For a moment he  
was successful, but at the end of his  
first sentence, the noise in the upper  
part of the house was renewed, and the  
candidate was obliged to resume his  
seat.

Then Olway J. Cosgrove, president of  
the Duckworth club, under whose aus-  
pices the meeting was held, pointed out,  
as the chief offenders, three men in one  
of the balconies and asked the police to  
remove them. In doing so he character-  
ized them as blackguards and entreated  
the rest of the audience to give Mr.  
Bryan fair play as a fellow citizen and  
an American. This effectually silenced  
the crowd, and after the trio of bellig-  
erents had been summarily ejected, Mr.  
Bryan went on with his speech.

## THIS MAY MAKE TROUBLE.

England Objects to Germany's Removal  
of the Zanzibar Usurper.

ZANZIBAR, Oct. 3.—It will be remem-  
bered that, when British ships bomb-  
arded the palace, driving out the  
usurping sultan, who was supposed to  
have poisoned the late ruler, the  
usurper Seyid Khalid took refuge in the  
German consulate and the British put  
another on the throne.

The German consul acting upon the  
instructions received from his govern-  
ment, refused to place the fugitive in  
the hands of the British. This caused  
considerable irritation and has been the  
cause of considerable diplomatic cor-  
respondence between Great Britain and  
Germany.

The situation has taken a new turn.  
An unusually high tide prevailed and  
while it was touching the wall of the  
German consulate, Khalid was placed,  
under an escort of armed German  
sailors, on board the German cruiser  
Seeadler for conveyance, it is believed,  
to one of the German colonies.

The British consul here, Mr. Basil  
Cave, in charge of the British agency in  
the absence of A. H. Hardinge, the  
British agent and consul general, who  
has been to England to consult with the  
home government regarding the admin-  
istration of Zanzibar, was not notified  
of the removal of Khalid to the German  
warship until after the usurper was safe  
on board the Seeadler. But so soon as  
he became aware of the action of the  
German authorities Mr. Cave lodged a  
vigorous protest at the German consul-  
ate against the embarkation of Khalid,  
especially pointing out that the ques-  
tion of his surrender to the British au-  
thorities was still under discussion by  
the governments of Great Britain and  
Germany. He also cabled to his gov-  
ernment international complications of  
a serious nature may result.

## Hot Blow at the Socialists.

DETROIT, Oct. 3.—Speaking of the  
discussion over the proposed socialistic  
amendments to the constitution of the  
International Cigarmakers' union, Pres-  
ident Perkins told the delegates that  
they had not assembled to regulate the  
universe in the affairs of workingmen  
in general. Their duty was to legislate  
for the interests of the cigarmakers.  
"Our organization," he said, "has se-  
cured for us shorter hours and higher  
wages." They would gain nothing  
through politics, he said.

## TONSILINE CURES SORE THROAT.

Read what a well-known Minister  
writes us about Tonsiline:

East Palestine, O., April 8, 1895.

The Tonsiline Co.:

I take pleasure in saying that we have  
used Tonsiline in the family for ulcerated  
sore throat, and it not only seemed to pre-  
vent the attack from being so severe as  
formerly, but cured the throat completely in  
a very few days. When any one of us has  
sore throat of any kind, the rush is for the  
Tonsiline bottle, and that is the last of it.  
It is certainly a most excellent remedy.

Yours very truly,  
D. F. DICKSON.

TONSILINE SHOULD BE IN EVERY HOME.

Sore Mouth, Croup and Quinsy are quickly  
cured by Tonsiline.

## DUN'S TRADE REVIEW.

Increase in Failures, Owing to  
the Coming Election.

## BUSINESS OUTLOOK SOME BETTER.

Encouraging Progress in the Great In-  
dustries, Although Actual Gain Is  
Slight—Wheat Continues to Advance.  
A Belief That Better Times Are Near.

NEW YORK, Oct. 3.—R. G. Dun &  
Co.'s Weekly Review of Trade, issued  
today, says: The complete report of  
failures for the quarter which ended  
with Wednesday shows an increase  
which would be surprising if political  
causes were not obvious. In number  
6 1/2 per cent less than in the panic  
quarter of 1893, failures for the quarter  
show liabilities 11.1 per cent less,  
amounting to \$73,285,349, against \$81,  
869,682 in the previous half year.  
Manufacturing liabilities were \$32,479,  
196, or 37 per cent greater than in the  
same quarter of 1893, while trading  
were \$28,728,217 and other commercial  
were \$12,067,236.

To this must be added \$11,712,900,  
liabilities in 50 bank failures, making  
exclusive of railways nearly \$85,000,000  
for a single quarter. Comparisons are  
given showing that in only six quarters  
in 22 years have defaulted liabilities  
been as large, that the ratio to solvent  
business has been \$6.06 per \$1,000  
against \$2.34 for the same quarter last  
year, that the average per firm in busi-  
ness has been \$63.57, against \$26.92 last  
year, that the proportion of increase  
has been greatest in the western states,  
both in amount and in average liabili-  
ties per failure, and much larger in  
manufacturing than in trading.

Part, but clearly not all of the causes,  
has been removed by the influx of gold,  
and depression is still shown by clear-  
inghouse payments, 23.1 per cent less  
than last year for the week and 31.2  
per cent less than in 1892, when an-  
other presidential election was near.

The continued advance in wheat may  
prove of the utmost importance. It has  
seen 1.12 cents for the week and 10  
cents since Sept. 2, and is mainly due  
to short crops abroad and unusual for-  
eign demand. Atlantic exports for the  
quarter ending with September, flour  
included, were 23,195,214 bushels  
against 24,320,020 last year, the outgo  
of wheat separately having nearly  
doubled in spite of higher prices. No  
lack of visible domestic causes or sup-  
ports the advance; western receipts for  
the exact quarter were 57,422,941 bush-  
els against 43,790,469 bushels last year.

There are unmistakably encouraging  
progress in the great industries,  
although the actual gain in working  
force employed or in new orders re-  
ceived is slight. But the strong demand  
for materials, for pigiron, hides and  
wool, as for cotton, does not diminish,  
and has already gone far enough to  
stiffen prices. In wool, quotations are  
scarcely stronger, but represent actual  
sales more nearly than in past weeks,  
when buyers with cash almost made  
their own prices. Sales in five weeks  
have been 33,169,300 pounds, of which  
only 4,679,400 were foreign, against  
34,719,170 last year, of which 15,553,  
470 were foreign, and 37,288,400 in  
1892, of which 11,090,600 were foreign,  
and when it is remembered that in  
spite of the recent starting of some  
mills, not more than 30 per cent of the  
total capacity can be producing, the  
preponderance of purchases to antici-  
pate future wants is apparent. Orders  
for woolsens do not gain, and several  
kinds of dressgoods, flannel suitings  
and fancy worsteds, are selling a shade  
lower.

Buying of Bessemer pig again lifts  
Pittsburg quotations to \$11.75 without  
any general gain in the demand for fin-  
ished products, and steel bars for the  
first time are sold at 1 cent against 1.2  
cents asked by the association last year.  
Plates and rails are in less de-  
mand, but there is heavy buying of  
sheets at the west. Confidence that re-  
viving business must bring a greater de-  
mand than all the works can meet in-  
duces the various associations to make  
no change in their prices.

Merchants and manufacturers are  
waiting, but there are not wanting  
signs that many have the confidence to  
push forward as though the dawn of  
prosperity were close at hand. The  
quarter that has passed has been most  
trying, but things would be worse than  
they are but for the general belief that  
better times are near.

## WOULD STEVENSON ACCEPT?

He Refuses to Say If Sewall and Watson  
Were Dropped.

ST. LOUIS, Oct. 3.—Vice President  
Adlai E. Stevenson has arrived here  
from Burlington, Ia., where he met  
with an accident in the collapse of a  
reviewing stand at the semi-centennial.  
He was slightly bruised and seemed  
none the worse for his experience.

Your representative informed him,  
soon after his arrival at the Southern  
hotel, of the reports that Sewall and  
Watson would resign or be dropped  
from their respective tickets and a candi-  
date substituted who could bring the  
votes of the Democratic and Populist  
parties together. He said:

"This is the first that I have heard of  
the matter, and I think it amounts to  
nothing more than newspaper talk."

In reply to question whether if such  
action was taken and the nomination  
offered to him, he would accept, Gen-  
eral Stevenson said:

"That is hardly a fair question to ask  
under the circumstances. I have not  
been offered the nomination, nor do I  
think I will be."

## Story of a Battle Denied.

MADRID, Oct. 3.—A dispatch from  
Havana received here announces that  
it is denied that Mulquiza has taken the  
posts occupied by General Maceo and  
that the insurgents lost 80 killed and  
large numbers wounded. The dis-  
patches add that 11 Spaniards were  
killed and that 90 were wounded.

## The Civil Service Spreads.

WASHINGTON, Oct. 3.—A small ap-  
plication of civil service principles to the  
navy is indicated in an order made by  
the president, placing shipwriters in  
line of promotion to the grade of yeo-  
man, whose compensation is \$60 per  
month.

## THE TEMPLE CUP SERIES.

The Baltimoreans Took the First Game  
From the Clevelandans.

BALTIMORE, Oct. 3.—The champions  
took a long pull and a pull all together  
and beat their ancient enemies, the  
Spiders, in the first game for the Tem-  
ple cup series of 1896. They did it  
with such apparent ease that the hearts  
of the Baltimore fans are filled with  
the fondest hopes that the trophy which  
has heretofore hung too high for the  
Orioles to reach, will at last be plucked  
and brought to Baltimore to keep com-  
pany with the three championship pen-  
nants, of which Manager Hanlon is so  
proud. Four thousand people saw the  
game.

The contest throughout was clean  
and free from wrangling, although  
some close decisions were questioned.  
The crowd was goodnatured and  
cheered Captain Tebeau when he came  
to the bat. He was compelled to re-  
linquish his place to O'Connor at the  
beginning of the third inning because

W. C. TEMPLE.

of an injury to his back. McGraw for  
the Orioles, also found the work too  
hard for him and Quinn took third bag  
in the last half of the same inning.

The game, as an exhibition of sci-  
entific ball playing, was a good one,  
abounding in fine fielding and hard  
hitting. Jennings' error, the only one  
for the Orioles, was an excusable one,  
being a low throw to first after a bril-  
liant stop, and while running at top  
speed. Those of the visitors were very  
costly and all but one of them resulted  
in giving runs to the home team.  
Young was batted freely, while Hoffer  
pitched a masterly game, striking out  
five men and that at times when even a  
long fly would have meant a run for  
the visitors. Score:

At Baltimore..... R H E  
Cleveland..... 0 0 0 1 3 0 1-7 13 1  
Batteries—Robinson and Hoffer; Zimmer  
and Young. Umpires—Emslie and Sheridan.  
Attendance, 3,965.

## ONE ROBBER KILLED.

A Railroad Train Held Up Near Albu-  
querque, N. M.

ALBUQUERQUE, N. M., Oct. 3.—The  
eastbound No. 2 passenger train has  
been held up at Rip Puerto bridge,  
about 30 miles from this city.

When the robbers jumped on the  
engine and compelled Engineer Ross  
and his freman to uncouple the engine  
and express car from the train, Depart-  
ment Deputy Marshal Loomis, who was  
returning from the west, took in the  
situation and fired at the first man,  
killing Robber Cole Young.

The robbers then commenced shoot-  
ing, and shot a lantern from the hand  
of a brakemen. Rumors here are that  
several others were shot, but this is not  
yet confirmed.

## THE FLORIDA TORNADO.

Harrowing Reports Received From the  
Interior Points.

PENSACOLA, Fla., Oct. 3.—Further re-  
ports received from interior points in  
the path of the tornado show that it  
was the most destructive storm ever  
known in the state. The death list is  
growing and the destruction to build-  
ings, crops, timber, railroads, livestock,  
etc., is now estimated at millions of dol-  
lars. The state agriculture college at  
Lake City was badly damaged and  
many of the finest depots along the  
lines of railroads are complete wrecks.  
The large phosphate works in  
Alachua county were badly damaged  
and all the turpentine works in that  
section were destroyed. In many dis-  
tricts not a vestige was left of the grow-  
ing crops. The storm was not expected  
in the interior, and many persons were  
killed who might have sought shelter  
had they been warned.

## THE REPORTS EXAGGERATED.

Probably Twenty Lives Lost at Cedar  
Keys, In Florida.

JACKSONVILLE, Fla., Oct. 3.—The re-  
ports that have been sent out concern-  
ing the loss of life at Cedar Keys are  
grossly exaggerated.

It is so far positively known that 20  
persons have been drowned in that vi-  
cinity, in addition to this it is feared  
that the crews of numerous sponging  
vessels were lost during the gale, but  
as communication with that district is  
still impossible, any statement of prob-  
able numbers would be the merest  
guess work. In the interior of Florida  
the destruction of property was great,  
but no loss of life is reported.

## THE ROAD TIED UP TIGHT.

Canadian Pacific Trying to Get Oper-  
ators in New England.

WINNIPEG, Oct. 3.—The Canadian  
Pacific is tied up as tightly as ever. It  
is reported that a collision between two  
trains was narrowly averted west of  
Griseville. The strikers claim that six  
operators who returned to work have  
gone out again. No freight is moving  
and all express business except prepaid  
to be left on the platform is declined.

PROVIDENCE, R. I., Oct. 3.—Traveling  
Passenger Agent McKenna of the Cana-  
dian Pacific railroad has been in this  
city looking for telegraph operators to  
take the place of the operators of the  
road who are on strike. Free transpor-  
tation, good food and big salaries were  
the inducements offered, but Mr. Mc-  
Kenna got no recruits. He left for  
Worcester at noon.

## A SMILING FACE.

'Tis nice to wear a smiling face  
And laugh our troubles down.

For all our little trials wait  
Our laughter or our frown.  
Beneath the magic of a smile  
Our doubts will fade away  
As melts the snow in early spring  
Beneath the sunny ray.

'Tis nice to make a worthy cause  
By helping it our own;  
To give the current of our lives  
A true and noble tone.

'Tis nice to comfort heavy hearts  
Oppressed with dull despair  
And leave in sorrow darkened lives  
A gleam of brightness there.

'Tis nice to give a helping hand  
To eager, earnest youth;  
To watch, with all their waywardness,  
Their courage and their truth;  
To strive, with sympathy and love,  
Their confidence to win.

'Tis nice to open wide the heart  
And "let the sunshine in."  
—London Tit-Bits.

When we part with our labor, our  
products, or our property, we should re-  
ceive in return money which is as stable  
and unchanging in value as the ingenu-  
ity of honest men can make it.—WILLIAM  
MCKINLEY.

## Five Facts Worthy of Daily Study.

First—There is not a free coinage  
country in the world today that is not  
on a silver basis.

Second—There is not a gold standard  
country in the world today that does  
not use silver as money along with gold.

Third—There is not a silver standard  
country in the world today that uses  
any gold as money along with silver.

Fourth—There is not a silver standard  
country in the world today that has  
more than one-third as much money in  
circulation per capita as the United  
States have; and

Fifth—There is not a silver standard  
country in the world today where the  
laboring man receives fair pay for his  
day's work.

## WHEELMEN IN CANTON.

About 5,000 Visited Major McKinley Today.

### OTHER DELEGATIONS ALSO THERE.

Eleven Parties Heard the Major Talk. They Were From Ohio, Pennsylvania and Illinois Points—McKinley's Speech to Ohio and West Virginia People.

CANTON, O., Oct. 3.—The bad weather of the week has interfered with the wheelmen's arrangements for today, but about 5,000 came to Canton. Chicago sent between 300 and 400, and parties assembled at Cleveland and Pittsburgh gathered up recruits enroute. Eleven other delegations came today, coming from Ohio, Pennsylvania and Illinois points. They were addressed by Major McKinley.

The distinguished callers on Major McKinley are increasing. Among them were Harry Garfield of Ohio, Senator Henry Cabot Lodge of Massachusetts, Theodore Roosevelt of New York, Congressman Nelson A. Dingley, chairman of the house of ways and means committee of Maine, Rutherford Hayes of Ohio, Hon. John D. Rockefeller of Pittsburgh and Robinson Lock of Toledo. Mr. Dingley said he expects McKinley's election to be emphatic and overwhelming. He also expects the next house to be Republican and against free silver by a large majority. He is hopeful that the senate will be carried in the general victory.

Mr. Roosevelt says the Republican sentiment in the east amounts to a tidal wave and he believes it will sweep over and engulf the west.

Senator Lodge predicted an unprecedented Republican majority in Massachusetts and complete victory in the nation for the Republican party.

A delegation on a special train of four coaches from Wheeling, representing the Panhandle counties of West Virginia, has visited Major McKinley. A delegation from the Baltimore and Ohio separated this party, and those beyond that point were left behind. Another detachment of the party came by way of the Wheeling and Lake Erie, a little later than the special train. The delegation was presented by Attorney T. H. Garvin of Wheeling.

Before Major McKinley reached the fairgrounds to address the West Virginians a special train arrived with a delegation from Hagerstown and Seneca counties, O., and the two delegations were merged into one meeting. The introduction of Mr. Garvin was followed by introductions of C. H. Henning and Mr. Francis of Chicago Junction, O., for railroad men of that vicinity and by F. W. Kirtland for Plymouth and Seneca county. Major McKinley made a response to all in one address.

He said: It gives me special pleasure to meet at my home in a joint meeting the citizens of the state of West Virginia and of my own native state. A Republican has no embarrassment in speaking to an American audience. He does not have to make a different speech for a different locality. What he would say to the people of West Virginia, or any other state south, he could say in New England or the far west or on the Pacific coast, for the principles of the Republic are as universal as our flag. [Applause.] The people embrace the good of every American interest and section. The great thought of the people of this country, wherever they may reside, or wherever they may be employed, is how we may advance the nation to the end conditions of business activity and prosperity. Something has gone wrong. We have the same country; we have the same men; the same money, the same masterful genius among our people that we had between 1880 and 1892, but we have not the same degree of prosperity now that we had then. [Applause and cries of "that's right." What is the trouble? [A voice: "Free trade," followed by great applause.]

In single word, the trouble with the country is a lack of confidence. As to what has brought about this lack of confidence may differ, but that there is a lack of confidence, every citizen everywhere must concede, for every citizen has felt it in his own experience. Now, what is this thing called "confidence"? It is a belief in the stability of values, faith in our markets and our money, faith that the consumption of next year will be as great or greater than the present one; the currency of the country will be stable and undepreciating in value. [Great applause.] The merchant has confidence—when? There may be some merchants with confidence today. The shelves with more goods in expectation of larger sales. The manufacturer has confidence when he increases his factory, lays in his material in advance, or finishes a product is sold, confident that he can pay wages to labor and prices for his raw material, and in the end that his goods will be driven out in the end that he can market by foreign goods under a free trade policy. [Tremendous cheering and cries of "that's the stuff."]

The laborer feels this confidence when he is assured of steady employment and when he starts the building of a house for himself and family. The farmer feels this confidence when he plants generously, confident that what he sows will be in demand and bring him fair return for his labor. The railroad company feels it when he extends his lines and his switches, gets new equipment and improves its old equipment. The banker feels it when he loans with his capital and deposits and knows he is in good money. [Great applause.] And the depositor feels the confidence when he takes his money from its hiding place, where much of it is today—and puts it in a bank, sure that he can draw it out, according to his necessity or inclination, in as good money as he put in. [Great cheering.] This business confidence never refused loans; never got up a mine on a bank; never stopped a mine; never created idleness among laboring men. [Applause.] When confidence is present with us, the sheriff has less to do with fewer forced sales. Court dockets register fewer judgments; public charity is less necessary. [Tremendous cheering and cries of "that's the stuff."]

When confidence is shaken, misfortunes come upon us, but in battalions and [Applause.] No part of our people is exempt. Some from another. Doubt in the business world is death to business. [Applause and cries of "that's right."]

Great cheering. We know what brought it. And I think we know how to get rid of it. [Tremendous cheering and cries of "you're right we will." We have had it

In the United States to a greater or less degree from the moment it was settled in 1892 that our protective tariff laws were to be changed. It continued until the changes were actually made and still longer until the people in 1894 elected a Republican national representative, and made it impossible to cut deeper into the industries of our country. [Great applause.] When the doubt of further changes had been thus removed, then came the realization of the destruction which that tariff law had done to some of our great industries, entailing an injury felt in every state and community of our country.

Then following that was a loss to the treasury from insufficient revenues under that legislation. Then the run on the gold reserve; then bonds to make that gold reserve good. Then the obstruction in the senate to any emergency legislation which would supply the loss of revenue entailed by that law, and the very character of that resistance in the senate revolutionized the uncertainty. [Applause.] Then with all these burdens upon us, the Chicago platform, with its reactionary provisions, came to further fret us. The effect of this platform upon the business world has been characterized, not by Republicans alone, but by the old and trusted leaders of the Democratic party, as a menace to every invested interest in the United States, revolutionary in character, and directly leading to dishonor and partial repudiation. [Great cheering.]

The people this year are engaged in a great national contest to restore the confidence so sadly shaken by the succession of events which I have briefly named. In less than five weeks they will speak and make known their choice. What will it be, men of Ohio and West Virginia? [Cries of "McKinley, McKinley." followed by tremendous cheering.] If the people shall, ringing and impressive voice, declare, four weeks from now, that the national public credit shall not be lowered, that the national currency shall not be degraded, that the peace and tranquility of this government shall not be broken, the revenues of the treasury shall not be lowered, and then that the tariff shall no longer be inadequate to protect the American workshop and the American market, business activity will return, confidence will come back again, courage will take the place of fear, work will be resumed and prosperity will come to bless and benefit us all. [Great applause and cries of "that's so."]

God grant to our American people the wisdom to guide them in the right. [Great cheering.]

I thank you, my fellow citizens, for this visit, and wish for your safe return home.

### BUTLER REFUSES TO TALK.

He Is Silent Regarding Tom Watson's Protest.

WASHINGTON, Oct. 3.—Senator Butler declines to make any comments upon Mr. Watson's editorial concerning fusion between the Populists and Democrats when the dispatch containing it was shown him. He also declined to give out the protest Mr. Watson says he sent to Mr. Butler against the latter's fusion policy, saying that Mr. Watson was the proper person to give it if it was to be given to the world. It is understood considerable correspondence has passed between the two gentlemen, and that while Mr. Watson in general has opposed fusion, Mr. Butler has repeatedly applied to him not to stand in the way of it.

ATLANTA, Oct. 3.—The publication in this week's issue of Thomas E. Watson's People's party paper of an editorial attack on Chairman Marion Butler, of the Populist national committee, has excited comment here and is considered significant in view of the rumors abroad that Mr. Watson may retire from the ticket. The editorial in question is as follows:

Attempts have been made to show that Mr. Watson favored fusion in the state of Indiana.

This is not correct. Mr. Watson took the position at the beginning of the campaign that he would consistently vote for a single Sewall election, more than he could vote for a Hobart election. He filed with Chairman Butler a written protest against Mr. Butler's fusion policy. Mr. Butler has ignored Mr. Watson's protest and gone steadily forward on his own line.

Mr. Watson's position is now what it was when the Georgia state convention met. He is for a straight "Middle-of-the-road" ticket. In no other way can the Democratic managers be forced to abide by the St. Louis contract.

Mr. Watson's position has been humiliating and embarrassing and he has been compelled to submit to policies he did not approve.

### A CLASH IN NEW YORK.

Silver Democrats Will Go to Law With Gold Democrats.

NEW YORK, Oct. 3.—Chairman Danforth, of the Democratic state committee, has confirmed the report that an effort will be made in the courts to wrest from the gold standard Democrats of this state the title which they have adopted—National Democratic party.

Certificates of nomination were filed Thursday with the secretary of state by candidates of the National Democratic party. The law prescribes that any protest against such certificates must be filed within three days after the filing of the nomination. "We will file our protest with the secretary of state probably today," said Mr. Danforth. "Should he decide against us we will carry the matter to the courts. We believe that the other side presumes too much when it sets itself up as the 'National Democratic party,' and not only that, but the name is confusing and might cause our side to lose many votes through ignorance of the voters."

Another interesting phase was developed when Mr. Danforth declared that Senator Gorman would place himself in the hands of the state committee and might even take the stump in its behalf. He had already rendered the committee very valuable service, Mr. Danforth said.

### BRYAN TREATED COURTEOUSLY.

A Denial of an Attempted Assault on Him in Wheeling.

WHEELING, Oct. 3.—Careful investigation fails to substantiate the story sent out from here that there was an attempt to assault William J. Bryan by an unknown man in this city. There is absolutely no foundation for the story. As a matter of fact Mr. Bryan was treated with the greatest courtesy and respect by men of all parties during his visit here, and there was no unpleasant incident whatever to mar the success of the meeting.

## SMASHED THE TROCHA.

Maceo Easily Takes Weyler's Famous Ditch.

### 1,000 SPANISH KILLED AND HURT.

The Insurgents Surprised Them at Night and Terrible Slaughter Resulted—Maceo Cleared the Way to Join Gomez When He Pleased.

KEY WEST, Oct. 3.—Advices received from Havana state that Antonio Maceo in a recent attack on the trocha inflicted terrible losses on the Spaniards, more than 1,000 being killed and wounded.

The Spaniards were aroused from sleep to find a hail of insurgent bullets falling upon them. General Aralas and staff, half clad, rushed from their headquarters and tried to rally the Spanish troops who were panic-stricken by the insurgent attack.

It was half an hour before a semblance of order could be restored to the Spanish column, and during that time the troops remained huddled together, an easy mark for the bullets of the Cubans. It was during this period of panic that so many of the Spanish troops were killed. The insurgents had several dynamite guns, and these were used with terrible effect. It is said that many Spanish officers were killed and that General Aralas himself was slightly injured. After General Aralas succeeded in rallying his men he made a retreat and the Spanish force fell back four miles or more, leaving the trocha in the hands of the insurgents.

Antonio Maceo did not pursue the Spaniards, but held possession of Artemisa until morning, when he retreated to his stronghold. Before the insurgents retreated, they demolished the object of the trocha near Artemisa, blowing up the fortification with dynamite. They captured many arms. While the attack was in progress Artemisa, Maceo's lieutenants were assaulting the trocha with great success on the right and left from Bahia Honda on the north, to Makanda on the south, and at all points the strong line was demolished. Maceo could easily have crossed with his entire force, but his object was simply to demolish the trocha which it would not impede his eastward march when he desired to advance to meet Gomez.

### CHASING A BANK ROBBER.

One of His Companions Killed and Another Wounded in Oregon.

LA GRAND, OR., Oct. 3.—A posse of citizens is in hot pursuit of the one robber, who escaped after the trio robbed the First National bank of Joseph, Walla Walla county, of \$2,000.

At the time of the hold up there were four customers in the bank. Cashier McCully had occasion to go to a vault. When he came back he was confronted with a shotgun in the hands of a robber and told to throw up his hands. The customers had already complied with the request and McCully did likewise.

One of the robbers leaped over the railing and opened the private door, through which the men were made to pass and were then lined up against the wall. One robber took his position at the door and compelled all passers to halt and throw up their hands. The third robber went into the vault, taking all the coin and currency even to nickels and placed them in a sack. He then demanded from McCully the keys to the private boxes and ransacked them.

By this time the report that the bank was being robbed reached the citizens, several of whom arrived and awaited the appearance of the robbers. When they appeared, Alex. Donnelly, a young man 25 years of age, opened fire and killed one robber instantly and wounded another, hitting him twice. The third robber had the sack containing the coin and succeeded in reaching the door, which was standing nearby. The dead robber was named Brown, while the one who escaped was Cy Fitzgibbon. The wounded robber is now known.

### THE SULTAN INTERVIEWED.

He Points Out the Difficulties in Maintaining Order.

PARIS, Oct. 3.—The Debates contains an account of an interview had by a Frenchman with the sultan at Constantinople in which the latter declared that any civil or military officer convicted of failing to do his duty during the recent massacres in Constantinople would be punished. The sultan is reported to have added that the government endeavor to introduce reforms gradually, and that he would abide by all the pledges contained in the treaty of Berlin, although certain clauses in that treaty favorable to Turkey had purposely been forgotten.

The people of Europe, the sultan pointed out, were too apt to forget the material difficulties hindering the effects of his good will. His Asiatic empire, he added, contained two provinces which were alone equal to size of France and several of the distant vilayets had scarcely any roads or telegraphs. The different idioms and aspirations of each race in the empire had to be considered.

The sultan strongly emphasized his desire that there should be great improvements in the government, and in the empire, and he urged that if progress were slow it was due to the Armenians having caused trouble.

### Will Await the Election.

LEADVILLE, Colo., Oct. 3.—As a result of the miners' meeting the majority have decided to remain quiescent until after election. If McKinley is elected, the present intention is to abandon the strike. If Bryan is elected the hope is that the price of silver will advance and the managers will at once concede all demands of the union. The unruly element is aggrieved over the decision and eager to adopt radical measures at once.

Superintendent Sanor presided at the meeting of the directors of the library last night. The report of Secretary Danberg urged the purchase of books at once, and it was decided to devote all money received from the sale of membership tickets in that direction. It is believed 500 new volumes can be added before winter. Mr. Sanor, F. W. Fowler, Charles Danberg, J. N. Hanley and E. M. Crosser were appointed to devise means to meet the general expenses of the library. They will lose no time in beginning work.

They are greatly encouraged over the prospects, and have no reason to believe their efforts will not be crowned with success.

## A Good Horse.

Samuel Dickey returned from Lexington this morning with a fine Kentucky thoroughbred which he purchased there. The animal is a trotter, and has a good record.

Ladies, grand winter opening tonight at Miss Farrell's. Don't miss it.

Knights of old—crusaders who went to conquer the world, could not hope to succeed unless they were in virile, hearty health. A man cannot face difficulties if his stomach isn't in good order. Disturbed digestion will make a sluggish coward out of any man. It makes his mind stagnant, and he cannot think quickly enough to accomplish anything. It makes his movements slow, and takes all of the snap out of him. Every man in business in America has a fight on his hands just as much as ever had belted knight. It is a matter of life and death, just the same with him as it was with the crusader. Indigestion and all the ills that go with it, most frequently start in constipation. That keeps all sorts of impurities in the body, forces them into the blood, and so deranges the whole system. Constipation is one of the commonest ills, and to it are traceable most of the disorders that make people sick. Once it gets a firm hold of a man, it is most difficult to overcome it. Temporary relief can be obtained in a thousand ways. There are medicines on the market that will help as long as you take them. There is only one remedy that is a real remedy—that you don't have to keep on taking forever. That is Dr. Pierce's Pleasant Pellets. The "Pellets" are tiny, sugar-coated granules, mild and efficient in their action. They effect a permanent cure. You don't become a slave to their use, as with other pills.

If you will send a one-cent stamp to cover the cost of mailing only, we will send you FREE the most useful medical book extant. This is Dr. Pierce's Common Sense Medical Adviser, in plain English, a book of 1000 pages, profusely illustrated, the great expense of preparing which has been covered by the sale of 500,000 copies at the regular price, \$1.50 per copy. Address: World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

## PEDESTRIANS' PLEASURES.

Remarks in Behalf of the Old Original Mode of Travel.

It is to be hoped that the good old custom of pedestrianism will not fall into disuse. The bicycle rider has, perhaps, gained more than he has lost, but he has lost something, and that by no means unimportant. It is a great element to minimize time and distance to so considerable an extent. The enjoyment in this way of the air and exercise and the poetry and exhilaration of easy and rapid motion is delightful, but this sensuous satisfaction is likely to be obtained at the expense of mental stimulus. The bicycle rider cannot tarry to study the tint or texture of the flowers or breathe their fragrance. He cannot listen to the songs of birds or the music of the brooks. His course is over the world's conventional tracks, and, though nature speaks in countless tongues, he hardly catches so much as the echo of any of them. The woodlands and the byways, where lurk the choicest manifestations of beauty, he cannot visit. On his nightly runs he sees only the shining road before him reflecting the light of the moon and stars, but he cannot lift his eyes to the milky way or view the still more glorious tenantry of the heavens.

It does not seem a violent hypothesis that this condition of things must tend to weaken those habits of observation upon which so much that is great in art, science and literature depends, and that this will be deplorably apparent in the next generation unless some counter interest can be developed. It is a serious question whether a White of Selborne, a Burroughs or a Thoreau could have been produced on an exclusive bicycle basis. Their natural tendencies might have overcome all obstacles of environment, but observation is a plant that starts early and grows by what it feeds upon, and amid surroundings and influences like the present they might not so easily have been inducted into those delightful and congenial labors that have so sweetened the literature of our time.

The bicycle interest has come to stay and to grow until some more potent attraction shall supplant it. But to balance it and prevent social one-sidedness and mental deterioration we need the extension and multiplication of such organizations as the Appalachian club, which will soon start upon an outing not to annihilate space, but to become acquainted with the wealth which occupies it and in acquiring health and strength; also to acquire information. It is something to know the world of men, but it is infinitely more important to know intimately the world of nature, for upon that knowledge rests all that man ever has accomplished or ever can accomplish. The fastest scorcher may get to the end of life's journey the soonest, but he will not arrive with as much baggage as the more moderate and observant wayfarer.—Boston Transcript.

## The Last of Boodle's.

Another old landmark is about to disappear. Boodle's is one of the historical clubs of London, a connecting link with the days of "dandies" and fox hunting legends. More than half a century ago Fraed wrote:

In parliament I fill my seat Along with other noddies; In Jermyn street I lay my head And sip my hock at Boodle's.

The proprietress of Boodle's is dead, and, as there is now no one to carry on the club, it must come to an end unless the members acquire the property. But there are only some 500 members, and this number would have to be doubled in order to run it as a members' club. But, then, Boodle's would lose its distinctive charm, which lies in the fact that in its lofty, old fashioned rooms one is really at home.

It is the only club in London where one is unobtruded by a crowd and where one is never asked to pay for anything. A member's house account is sent to him only when he asks for it. Some enterprising gentleman like Mr. Algernon Bourke may possibly reorganize the club upon the lines of White's, but it will be the old Boodle's no more. Electric light and cash payment will supersede wax candles and the convenient "alala."—Saturday Review.

## YANKEE PLUCK NEEDED.

Good Field in Central America For American Enterprise and Ingenuity.

Taken as a whole, Central America offers a fair field for foreign enterprise, says The North American Review. By young men of self denying and sober habits, possessing a capital of \$5,000 and a tolerably good knowledge of the Spanish language, success either in commerce, agriculture or mining may be confidently counted upon, but they must avoid all interference in local politics. In these as in all other countries the foreigner whose character and mode of life command respect will very seldom, if ever, suffer molestation at the hands of the authorities. The Nicaragua canal, if once commenced in earnest, will open up the almost inexhaustible resources of that republic, and the engineering works alone will offer lucrative employment to thousands of foreigners. Its physical difficulties are insignificant compared with those which De Lesseps never overcame on the isthmus of Panama, and perhaps the greatest obstacle to contend with is the silting of the alluvial deposits at the mouth of the San Juan river, the Atlantic entrance to the canal. Its whole length will be 194 English miles, 110 of which are included in the great Lake of Nicaragua, 134 feet above the sea level, whose total superficial area is 3,698 English square miles. A short cutting will connect the lake with that of Managua, 156 feet above the sea level, with a superficial area of 600 English miles, being 50 miles long and 25 miles broad, with an average depth of five fathoms.

## The Oily Menhaden.

The oily character of the menhaden is familiar. It is caught for its oil, which is tried out in factories. Menhaden fishermen use purse nets, which are tarred to preserve them. To keep their hands from sticking to the tarred nets they rub on them a freshly caught menhaden, handling it somewhat as they would a cake of soap. So oily is the menhaden that the simple pressure thus applied is enough to bring through the scales oil sufficient for the purpose.—New York Sun.

## Good Breeding.

A man's own good breeding is the best security against other people's ill manners. It carries along with it a dignity that is respected by the most petulant. Ill breeding invites and authorizes the familiarity of the most timid. No man ever said a pert thing to the Duke of Marlborough. No man ever said a civil one to Sir Robert Walpole.—Chesterfield.

## HOME PROOF

Is What Our Readers Want. Read This Example.

Make a mental note of this. The endorser is well known in East Liverpool. His veracity is unquestioned. You are reading local evidence. Investigating home testimony. East Liverpool news for East Liverpool people.

It's not from Maine or Michigan. Suspicion can't lurk around it. Honesty is its prominent characteristic. Home endorsement its salient point.

Can our readers want any better proof than that supplied by Mr. N. T. Ashbaugh, No. 324 Lincoln avenue, packer and shipper at the Knowles, Taylor & Knowles pottery. Read this: "I have had trouble with my kidneys that caused me quite a lot of misery, having a severe dull pain across the loins and soreness and lameness when I got out of bed in the morning. I have come down to the pottery when I could not straighten up, but went about bent over. I could not get up or down, for if I attempted either I was rewarded with a sharp twinge of pain and the kidney secretions were not right. One physician gave me three prescriptions at one time, but they did not do a bit of good. I read about Doan's Kidney Pills, got some at the W. & W. Pharmacy and have been cured. I can be found at the pottery during business hours. If any one should wish to ask me about Doan's Kidney Pills, I would give them my experience with pleasure."

Doan's Kidney Pills are for sale by dealers; price 50c. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no other.
